

## THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's use.

Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every tinsal and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

A Contradiction of Terms.  
She—Did you read this article on the duty of home life?  
He—Yes, and it's all rot.

## WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder to do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation, send ten cents to Dr. Kilmor & Co., Birmingham, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

## RECOGNITION OF IRISH BRINGS STORMY SCENE

DECORUM OF HOUSE IS BROKEN AS CROWD APPLAUDS OR JEERS OPPOSING HEADS.

Advice is Shouted to Members of Board—Throng Includes Leaders of Celtic Insurgents—Republican Chiefs Are Called Pro-Germans.

Western Newspaper Union News Service. Washington.—The claim of the Irish Republic to recognition as an independent Government was brought to Congress again and was debated in brilliant fashion through a tempestuous session of the House Committee on Foreign Affairs. A crowd which jammed the committee room and blocked adjoining corridors punctuated proceedings with cheers and with shouts of disapproval as the opposing speakers with their plea for recognition. The occasion was committee consideration of a bill by Representative W. E. Mason, Illinois, Republican, which would appropriate funds for dispatch of diplomatic and consular representatives to the Government set up by the Irish Republic.

Its supporters declared it presented an opportunity for Congress to do all it could constitutionally toward a full diplomatic recognition and its opponents condemned it as an effort to involve the United States in a dangerous foreign struggle.

Charges of pro-Germanism on the part of Irish Republican leaders and certain of their supporters in this country threw the meeting into a furor, which the committee quelled with difficulty after the chairman had warned the Irish Republic to withdraw its plea for recognition.

The committee's plan of concluding was abandoned, and the arguments will be resumed. Justice Daniel F. Callahan, of New York State Supreme Court, and Frank P. Walsh, who headed the Irish-American delegation, sent to Paris during peace negotiations, appeared to expose the cause of Irish freedom and ask for passage of the bill. Arguments in opposition were made by George L. Fox, of New Haven, Conn.; George T. Lomon, of Troy, N. Y., President of the National Federation of Pro-Irish Patriotic Societies, and others.

Hines Cancels Fuel Orders.

Washington.—Authority was given to Regional Director General Walker D. Hines to remove restrictions on the use of light, heat and power derived from coal as soon as the fuel situation warrants. Regional Directors also were authorized to restore train service removed or curtailed to meet the coal shortage due to the bituminous miners' strike as soon as the fuel supply in the various regions justifies. Sending out of the instructions constituted the first step taken by the Government in the light of expectation that miners would accept the Government's strike settlement proposal and return to work. Director General Hines, in announcing his action, said conditions in the regions varied greatly and coal still was being shipped from the East to the West, but that removal of restrictions might be justified in some.

Case for Alarm.
